Saku Karttunen

FULLSTACK ENGINEER

// EXPERIENCE

Riihisoft Oy, Fullstack Developer, current:

Started as a junior fullstack developer at in the Umbraco team. I have also been doing some graphics.

MPS Prewise, Web development, Graphics, 2024:

I worked for MPS Prewise as a freelancer for the end part of my studies. There I was helping create learning materials in their proprietary software platform.

Freelance Developer and Designer, 2019:

Since 2019 I have worked as a Freelance Web Developer and Graphic Designer. I have created multiple websites and designed plenty of logos that have went on to be used by businesses in Finland.

```

// EDUCATION

ICT-Engineer, HAMK University, Riihimäki

I started my studies in 2021 and I am currently on my 3rd year. I have worked towards profiling myself as a web and software developer as well as programming in general.

Media Specialist, Hyria, Riihimäki

After graduating in 2020 I recieved a scholarship for an "entreprenurial mind" for my many gigs as a freelancer during my media studies
