Saku Karttunen ICT-ENGINEER

// EXPERIENCE

Freelance Developer and Designer, 2019:

Since 2019 I have worked as a Freelance Web Developer and Graphic Designer. I have created multiple websites and designed plenty of logos that have went on to be used by businesses in Finland.

Oikeusrekisterikeskus, Service Design, 2023:

I worked at ORK as a part of the Service Design team. There I helped create templates and presentations created to be used in the process of starting the work on creating services.

Geego Kids, Hämeenlinna, 2020:

Video- and photographer as well as video editor for the Geego Kids app and for the brand's social media.

// EDUCATION

ICT-Engineer, HAMK University, Riihimäki

I started my studies in 2021 and I am currently on my 3rd year. I have worked towards profiling myself as a web and software developer as well as programming in general.

Media Specialist, Hyria, Riihimäki

After graduating in 2020 I recieved a scholarship for an "entrepreneurial mind" for my many gigs as a freelancer during my media studies
